

Dangers of Defective Plumbing!

Defective plumbing permits the entrance into the house or sewer gas bearing germs or contagious disease to which the human system readily succumbs. Sewer gas is not necessarily generated in the sewer, but is frequently created in the plumbing system within the home and enters the apartments through defective fixtures. If in doubt, consult us regarding the piping and repairing defective fixtures with "STANDARD" Porcelain Enameled Ware, acknowledged as the best sanitary equipment.

No Reflection Intended on Our Banks.

An editorial appeared in this column in last issue under the head of "Demoralization Bred By Law." It referred to several big bank failures in Chicago, Philadelphia, and other large cities and putting the blame on President Roosevelt for allowing Federal inspectors to be so lax in their duties. The editorial was simple and only meant and written from a political standpoint. However some of our local bankers have taken offense at a sentence therein that was, perhaps, rather too broad. Now we want to insure every bank official in Paris that when that article was published, the local banks were not for a moment in our mind, nor was any part of the article intended in any way to apply or have any reference to any of our local banks. After re-reading the article referred to we can see that a rather broad assertion was made, and we desire to repeat that it was not intended to reflect in any way on our local banks, or in fact, to banks generally, it was only intended for these big concerns throughout the country that had gone to the wall and carrying millions of dollars of the savings of the common people with them.

Knowing as we do the honorable men connected with the ten banks in Bourbon County, the able manner in which these men conducted the affairs of their banks during the panic of the nineties, alone entitles them to the unbounded confidence which they are held by the people of Bourbon County. No man has ever lost a dollar by one of our local banking institutions, nor would feel unsafe if they had a hundred thousand dollars on deposit in any one of them. Knowing these things it would be far from us to in any way cast a reflection upon them or their banks in such a manner. We trust this statement will correct any erroneous view some of them may have in our intention in publishing the editorial referred to.

Outrageous Methods of the Frankfort Machine.

(From the Frankfort Call.)

We were shown a letter from a lady employed at one of the asylums which stated that out of a salary of \$20 due for the month of August she was required to pay to the campaign fund of Gov. Beckham \$5, or one-fourth of her small salary. The letter also stated that this same thing was done to all the female employees, she did not know about the men.

This is a shame and an outrage. Captain Kidd and his pirates robbed the rich, the James gang never took tribute from a woman and especially a poor woman who worked for wages. Robin Hood gave to the poor instead of holding them up. John A. Murrell killed a man for 35 cents, but he never robbed a woman. That is left for the machine to do.

We can understand how a patriotic woman or man who holds office by reason of a party in power could reasonably be expected to contribute to the legitimate expenses of that party in elections. That is customary, but in such cases we never knew of a compulsory contribution. This is not that kind of a case. Here the hold-up, for it is nothing else, is not for party success, it is for personal success of one Democrat against another and inside the lines. Of course if the women attendants, nurses, cooks and washerwomen are compelled to pay one-fourth of their salary for Gov. Beckham's campaign expenses, the men are also. If the asylum employees are forced to contribute, so are the prison employees. So, the great expense of the primary election will not be borne by Gov. Beckham, although he has been paid a salary of more than \$39,000 up to this time as Governor.

The good people of the State should resent the levying of tribute from the poor women who are compelled to work in the asylums for \$20 a month and then of that sum contribute one-fourth to the political ambitions of any man. We do not know, nor did this lady know, whether she would be called on to contribute to Mr. Hager's expense, nor do we know whether the ladies will be called upon to contribute to the campaign expenses of the member of the Legislature that introduced the "Board of Control" bill in the Legislature. There is the same reason why they should that here is to contribute to Gov. Beckham's and that is, that Haley, Board and Phillips can hold them up for that amount and if they refuse to deliver, to fill their places."

ACETYLENE.

The Ideal Light of the Twentieth Century.

The Brightest and Best, Cheapest and Safest, when made in
The Ideal Epworth Generator.

Quality and quantity considered, Acetylene may safely be classed among the most economical of illuminants.

COMPARED WITH KEROSENE OIL.

Two and one-half pounds of Carbide costing 9 3-8 cents will furnish as much light and of better quality than one gallon of oil costing 15 cents.

COMPARED WITH COAL GAS.

Twenty pounds of Carbide costing 75 cents will furnish as much light as 1,000 cubic feet of Coal Gas at an average cost of \$1.50.

COMPARED WITH INCANDESCENT ELECTRIC LIGHTS.

At 15 cents per 100 Watts, a 24 candle power electric lamp costs 11-8 cents per hour, while a 24 candle power Acetylene burner costs 4-10 cents. Figure out the results.
